Enterprise pricing sheet

Browser-based Excel-compatible workbook engine

Embed workbook viewing, calculation, editing and VBA execution in your product. Workbooks are processed on the user's device, with no server upload required.

CUSTOM ANNUAL PRICING

Quoted individually. Invoiced annually.

No fixed public Enterprise price. The amount and currency are agreed in a written quote.

Included with Enterprise

- **Full Professional functionality**

  Workbook rendering and calculation, editing and data tools, PivotTable authoring, chart editing, xlsx/xlsm export and the VBA runtime.

- **Commercial deployment rights**

  OEM and SaaS redistribution rights, with unlimited developers on one agreement. Redistribution scope is recorded in the order form.

- **Source access and assurance**

  Source access under NDA, source escrow, security questionnaire and data processing agreement support.

- **Engineering support**

  Fidelity fixes for customer workbooks, a named engineer and response-time commitments, with scope and service levels agreed in the order form.

Request an Enterprise quote

Email contact@sheetwarden.com with your company name, intended product and deployment, redistribution requirements, and any source-access or support needs.

The written quote and order form specify the annual fee, currency, applicable taxes, payment terms, licensed scope and any agreed service commitments. This sheet describes the offer; it is not a customer-specific quotation.
